STARBEAD® ROADMARKING

COMPANY DETAILS

Name: Blastrite (Pty) Ltd.,
Address: P O Box 5515
          Cape Town, 8000
          South Africa
e-mail: sales@blastrite.co.za
Website: http://www.blastrite.com

SECTION 1 – PRODUCT AND COMPANY IDENTIFICATION

Trade name: STARBEAD® Roadmarking  CAS Number: 65997-17-3
Chemical Family: Soda-lime-silica glass  NOISH Number: Not available
Chemical Name: Not applicable  Hazchem Code: Not available

SECTION 2 – COMPOSITION AND INFORMATION ON INGREDIENTS

Chemical and common name: GLASS, OXIDE;
CAS#: 65997-17-3
WT. %: >99%
OSHA PEL: 15MG/M3 TOTAL DUST, 5MG/M3 RESPIRABLE
ACGIH TLV: 10 MG/M3 INHALABLE, 3 MG/M3 RESPIRABLE

SECTION 3 – HAZARDS IDENTIFICATION

Emergency Overview: Non-combustible glass beads. Spilt material is extremely slippery.
Eye Contact: Non-irritating to the eyes.
Skin Contact: Slightly irritating to skin.
Inhalation: May cause irritation
Ingestion: No known hazard
Chronic Hazards: No known chronic hazards. not listed by ntp, iarc or osha
Physical Hazards: Spilled material is extremely slippery.
SECTION 4 – FIRST AID MEASURES

Eye: Use water to flush eyes 15 min if contact
Skin: Use water to flush skin if contact. Take off the contaminated clothing and Shoes. Get medical treatment if irritation occurs wash clothing before reuse. Thoroughly clean shoes before reuse.
Inhalation: Na
Ingestion: Na

SECTION 5 – FIRE FIGHTING MEASURES

Flammable limits: Non-combustible.
Extinguishing media: Compatible with all extinguishing media
Hazards to fire-fighters: See section 3 for information on hazards if this material is present in the area of a fire.
Fire-fighting equipment: Rubber boots with slip-resistant soles is suggested to be used if this material is present in a fire.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal protection: Rubber boots with slip-resistant soles and NIOSH dust respirator IF dust occurs. See section 8
Environmental hazards: Sinks in water. No known hazard to aquatic life.
Small spill cleanup: Shovel or sweep up spilled material carefully and place in suitable container. Container should be closed. Use appropriate personal Protective equipment (PPE). See section 8.
Large spill cleanup: Keep unnecessary people away; isolate hazard area and deny entry. Do not walk through spilled material. Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust. Use appropriate personal protective equipment (ppe). See section 8.
CERCLA RQ: There is no CERCLA reportable quantity for this material.

SECTION 7 – HANDLING AND STORAGE

Handling/Storage Keep in waterproof packaging and protect from damage.
Suitable Material Clean fibre pr plastic container.
SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Engineering controls: Use with adequate ventilation. Containers should be closed. Eyewash station should be within direct access.

Skin protection: Body-covering clothing should be worn

Eye protection: Safety glasses should be worn

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Transparent rounded particles

Odour: None

pH: Expected to be neutral in water.

Boiling Point: Not Applicable

Melting Point: ± 730 °C

Flash Point: Non-combustible

Flammability: Not flammable

Autoflammability: Not applicable

Explosive Properties: None

Oxidising Properties: None

Vapour Pressure: Not applicable

Density: ± 2.5 g/cm³

Solubility in Water: Insoluble

SECTION 10 – STABILITY AND REACTIVITY

Stability: Stable

Conditions to Avoid: None

Incompatible Chemicals: HF Acid

Hazardous Decomposition Products: None
SECTION 11 – TOXICOLOGICAL INFORMATION

Acute data: When tested for primary irritation potential, a similar material was Practically non-irritating to the eyes and slightly irritating to the skin. The acute oral toxicity of this product has not been tested. A similar Material was nontoxic to rats at 5,000 mg/kg. All animals survived, gained Weight and appeared there were no Signs of gross toxicity, adverse Pharmacologic effects or Abnormal behavior.

Subchronic data: There are no known reports of subchronic toxicity of nonfibrous glass.

Special studies: There are no known reports of carcinogenicity of nonfibrous glass. Nonfibrous glass is not listed by IARC, NTP or OSHA as a carcinogen.

SECTION 12 – ECOLOGICAL INFORMATION

ECO toxicity: No reports records Ecotoxicity of nonfibrous glass.

Environmental fate: This material is persistent but inert in aquatic systems. It will not bioconcentrate up the food chain.

Physical/chemical: Sinks in water. Insoluble in water.

SECTION 13 – DISPOSAL CONSIDERATIONS

Classification: This material is not a hazardous waste.

Disposal method: Dispose according to regulations

SECTION 14 – TRANSPORT INFORMATION

No special precautions necessary. It is recommended to keep bags closed and dry bulk loads covered to prevent dust generation.

SECTION 15 – REGULATORY INFORMATION

SARA Title III: Not an extremely hazardous substance under §302 not a toxic chemical under §313.

SECTION 16 – OTHER INFORMATION

The information and recommendations presented in this data sheet are to the best of our knowledge and belief accurate and reliable, but do not constitute a warranty. None of our representatives or agents are authorised to give any guarantee or warranty or make any representation in addition or contrary to the above, and we do not accept liability for claims of any kind for any loss, including, without limitation, consequential loss, injury or damage arising from the use of the information or recommendations, or of the products, which are the subject matter hereof. The products are sold subject to our standard conditions of sale and tender, copies of which are available on request.
