SURFACE PREPARATION INNOVATION

Version Date: May 2011

Title: Graco Silverplus Airless Spray Gun

GRACO SILVERPLUS AIRLESS SPRAY GUN

This gun is one of the most popular airless spray guns on the market. The gun body design offers a handle that fits in your hand comfortably for extended amounts of time. With a wide variety spray tips to meet your needs, it's easy to direct the material flow creating tighter, more consistent spray patterns while minimising paint overspray, and then clear tips after use

Typical fluids handled include high solids epoxy primers and coatings, polyurethane coatings, architectural latex emulsion paints, coal tar epoxy primers and tank and pipe coatings and linings. This gun is ideal for use in the following applications: rail car manufacturing, ship and barge construction, bridge, tank and water tower painting, and farm and construction machinery manufacturing.

Features

- Shaped handle and lower weight reduces fatigue and increases operator comfort
- No adjustment needle – makes for quick and easy repairs
- Patented needle design increases gun life

Technical specification

<i>Specification</i>	<i>Measurement</i>
Max. working fluid pressure	34.5 MPa (345 bar)
Weight without tip or guard	510g
Fluid orifice All models, except 235-462 235-462	2.3 mm 0.94 mm
Fluid inlet	¼ npsm(m)
Max. material temperature	50°C
Sound pressure level *	78 dBa
Sound power level	87 dBa
Wetted parts	Stainless steel, polyurethane, nylon, Teflon®
Instruction Manual	308-236

* Measured while spraying waterborne paint = gravity 1.36 through a 517 tip at 20.7 MPa (207 bar) per ISO 3744.
